AMENDMENTS TO THE CLAIMS

Please cancel claims 4-6, 8, 10, 12, and 15-16. The following listing of claims will replace all prior versions and listings of claims in the application.

1. (Currently amended) An edge node that receives content from a Network Operations Center (NOC) via a satellite broadcast content distribution network and distributes it to a last mile service provider, the edge node comprising:
  - one media server capable of serving both live and non-live content;
  - a receiving router to receive content from the NOC over the satellite broadcast content distribution network and distribute the received content to the media server;
  - a controller, connected with the receiving router to form a private Virtual Local Area Network (VLAN), to process incoming data packages and execute commands from the NOC that receives content from the satellite broadcast content distribution network and distributes it to the media server;
  - a load balancer;
  - an outbound router, connected with the load balancer to form a public VLAN that to transmits the received content from the media server to a last mile service provider and having a terrestrial communication link to the NOC;
  - where the media server is connected to both the public and private VLANs; and
  - where the media server, private VLAN, and public VLAN exist in a single computer.
2. (Previously presented) The edge node of claim 1, further comprising a VPN, connecting the public VLAN to the private VLAN.

Serial No. 09/960,649

3. (Previously presented) The edge node of claim 2, where said VPN allows access to the private VLAN from a remote location.
4. (Cancelled)
5. (Cancelled)
6. (Cancelled)
7. (Previously presented) The edge node of claim 1 where the content is streamed.
8. (Cancelled)
9. (Previously presented) The edge node of claim 1 further comprising one or more additional media servers capable of serving both live and non-live content.
10. (Cancelled)
11. (Previously presented) The edge node of claim 1 further comprising shared storage connected to the private VLAN.
12. (Cancelled)
